IMPACT AREAS & FUNDED PROGRAMS

By focusing on four key building blocks - education, financial stability, health, and basic needs - we are ensuring that families have what they need to thrive in Mower County. United Way support offers a 'full-circle' effect for the communities we serve. A strong economy depends on the good health of its citizens. Healthy people are better able to work and secure higher levels of education, which contributes to personal wealth and regional prosperity. When basic needs are met, we all prosper.
