It's not easy asking for money from hard-working individuals in any setting, but especially when we know how much this group invests in your classrooms and students. We persist because of the deserving people who have been and will be influenced by community support, and our steadfast belief that if we combine our resources - financial, knowledge, talents, ideas and beyond - we can serve more efficiently, effectively, cohesively, and in a way that makes the greatest impact possible.

## "ALONE WE CAN DO SO LITTLE, TOGETHER WE CAN DO SO MUCH"

We see this in our partnership with Austin Aspires and Austin Public Schools and the many ways we collaborate to expand opportunities for all learners.

We have seen this through the implementation of Get Connected and our work alongside Riverland, Pacelli, APS, The Hormel Foundation, and the 1,600 students who have the opportunity to create change through volunteerism.

We see this in our funded partner network and the way in which United Way's support goes far beyond funding. We provide non-monetary resources that enhance the work of our partners and allows us to all better serve the people of Mower County.

We see this among organizations who adapt to the community's ever-changing needs while remaining connected with one another to ensure no one falls through the cracks. In the past two years, six new programs have applied for United Way funding in an act of stepping up to the plate to address the most pressing local issues.

Finally, we see this in the Austin Public School district. Austin is Academics. Austin is Enrichment, Activities, Arts, Science and Technology. Austin is Athletics, Innovation, and Alumni; but ultimately, Austin is you. A passionate group of administrators and educators who work tirelessly to ensure all students can succeed.

# THANK YOU, AUSTIN PUBLIC SCHOOLS, FOR LIVING UNITED
